

1. Cut out pattern at the circles edge. 2. Fold paper at lines in order indicated. 3. Cut out all grey areas. Use an X-acto knife for inner details.

MARY JACKSON (HIDDEN FIGURES)

Mary Jackson (1921-2005) was an aerospace engineer and mathematician who, through a 34-year career with the United States space program rose to become NASA's first black female engineer, ultimate becoming one of the most senior engineers in the organization. Her story working with NASA during the space race was chronicled in the film Hidden Figures, which was released in 2016.
